

Objection to the granting of a license to the U-bahn Cafe

The U-Bahn has applied for a license to sell alcohol and provide live entertainment until 2am in the morning,

I wish to object to the above for the following reasons.

The granting of a licence will result in increased car and foot traffic in Queensberry Road with the associated noise until the early morning.

Free parking is very limited in the area and the café clientele will be tempted to use the residents only parking thus causing difficulties to the residents.

Finally the regeneration of Kettering Town Centre is based on zones containing similar companies. ^{+ activities} Cafe's are encouraged to open in the entertainment zone not in the Office Zone where they will be isolated.
