

COUNCIL

2ND JULY 2014

Amendment to the Agenda

**ITEM 10
MOTION RECEIVED IN ACCORDANCE WITH COUNCIL
PROCEDURE RULE 14**

To be proposed by Councillor Ellie Manns and seconded by Councillor Jonathan West:-

"There is a national shortage of social and affordable housing. There is a growing need to meet young people's ambitions of home ownership, to enable them to remain in the borough. A Co-operative housing model can meet both of these issues. Co-operative housing schemes encourage self help, real involvement of tenants, and community responsibility.

This motion calls upon Kettering Borough Council to adopt the principles of Co-operative Housing to help resolve the shortage of real affordable housing. We call up the Borough to form greater links and meet with Redditch Borough Council to assess their use of Co-operative Housing; and to assist and actively support the establishment of a housing co-operative within the borough."
