Summary of Internal Audit Reports Published

Risk rankings definition

There are four categories by which we classify our recommendations. They are defined as follows:

Risk ranking	Assessment rationale
1	The system has been subject to high levels of risk that have, or could, prevent the system from meeting its objectives, and which may also impact on the delivery of one or more of the organisation's strategic objectives.
2	The system has been subject to high levels of risk that have, or could, prevent the system from meeting its objectives, but which are unlikely to impact on any of the organisation's strategic objectives.
3	The system has been subject to medium levels of risk that have, or could, impair the system from meeting its objectives.
4	The system has been subject to low levels of risk that have, or could, reduce its operational effectiveness.

Assurance Levels

There are five categories by which we classify our overall assurance levels. They are defined as follows:

Assurance Level	Assessment rationale
Full	The audit did not highlight any weaknesses that would impact on the achievement of the system's key objectives. It has therefore been concluded that key controls have been adequately designed and are operating effectively to deliver the key objectives of the system.
Significant	The audit did not highlight any weaknesses that would materially impact on the achievement of the system's key objectives. The audit did find some low impact control weaknesses which, if addressed, would improve the overall performance of the system
Moderate	The audit did not highlight any weaknesses that would in overall terms impact on the achievement of the system's key objectives. However, the audit did identify some control weaknesses that have impacted on the delivery of certain system objectives. Action is required to improve controls for these specific system objectives to a level that will enable management to fully rely on all elements of the system.
Limited	The audit highlighted some weaknesses in the design or operation of controls that have had a significant impact on the delivery of key system objectives, but which are unlikely to seriously impact on the delivery of the organisation's strategic objectives. Action is required to improve controls so that management can rely on the system to deliver its key objectives.
No	The audit highlighted weaknesses in the design or operation of controls that have not only had a significant impact on the delivery of key system objectives, but which could also impact on the delivery of the organisation's strategic objectives. Urgent action is required to ensure that the system meets its objectives and that the organisation's strategic objectives are protected from failure to achieve.

Kettering Borough Training – Performance Update

Table 1: Apprenticeship Success Rates at July 2014

	National Rate 2012-13	KBT 2012-13	KBT 2013-14
Overall Success Rate	72%	74%	61%
Timely Success Rate	57%	57%	42%

KBT Apprenticeship performance is benchmarked against national performance data release at the end of the contract year.

Overall success: % of all KBT Apprenticeship leavers who successfully completed their Apprenticeship.

Timely Success: % of all KBT Apprenticeship leavers who completed their Apprenticeship within the designated time.

Table 2: Foundation Learning Success Rates at July 2013 and Study Programme Success Rates July 2014

Questions Log

Questions raised at Committee on 10th June 2009:

With reference to NI 195, what is the difference between litter and detritus?

Litter

There is no statutory definition of litter. The Environmental Protection Act 1990 (s.87) states that litter is 'anything that is dropped, thrown, left or deposited that causes defacement, in a public place'. This accords with the popular interpretation that 'litter is waste in the wrong place'.

However, local authority cleansing officers and their contractors have developed a common understanding of the term and the definition used for NI 195 (and for the LEQSE) is based on this industry norm.

Litter includes mainly synthetic materials, often associated with smoking, eating and drinking, that are *improperly* discarded and left by members of the public; or are spilt during waste management operations.

Detritus

There is no statutory definition of detritus, however, local authority cleansing officers and their contractors have developed a common understanding of the term and the definition used for the NI 195 (and for the LEQSE) is based on this industry norm.

Detritus comprises dust, mud, soil, grit, gravel, stones, rotted leaf and vegetable residues, and fragments of twigs, glass, plastic and other finely divided materials.

Detritus includes leaf and blossom falls when they have substantially lost their structure and have become mushy or fragmented.

For Council tax and NNDR collection can we provide information to show whether we will achieve the year end target?

For both LPI 9 and LPI 10 a profile target is now included in the performance report to show whether performance is on target each month. This is to help indicate performance for the year. For example if we are achieving the monthly profiled target then the year end target will be achieved.

Questions raised at Committee on 28th September 2010

Why are lower percentages better for NI 195a-d?

There had been some confusion around NI 195a-d and why lower percentages are better. The indicators highlight the % of land/highways that have levels of litter / detritus / graffiti / flyposting that are unacceptable, meaning that a lower figure represents cleaner streets, which of course is more desirable.

Questions Log

Questions raised at Committee on 28th September 2010

Can in year figures for annual housing completions be included?

In year figures have been included in the Development Services Performance Information taken from the most recent Performance Clinic. This allows members to get a more contemporary position of performance.

Can a year end estimate for the number of affordable homes be included?

Year end estimates for the number of affordable homes expected in the year have also been included.

Can we provide more contemporary comparative data to provide a better idea as to how the benefits service performance compares with others and also find out the impact the current climate is having on claims?

Head of Income and Debt will attend the next meeting in November to provide an update on performance.

Questions raised at Committee on 25th September 2012

What do the volume figures mean in the Performance Update?

In response to a member query, volume figures were added to relevant performance indicators in 2011 to give context to the data. Here is the breakdown for what the figures represent for each of the indicators:

- NI 157a Number of major planning applications processed in 13 weeks / Total number of major planning applications received
- NI 157b Number of minor planning applications processed in 8 weeks / Total number of minor planning applications received
- NI 157c Number of other planning applications processed in 8 weeks / Total number of other planning applications received
- LPI 78a Number of days to process new claims / Number of new claims received
- LPI 78b Number of days to process change in circumstances / Number of change of circumstances received
- MPI 8 Number of invoices paid on time / Number of invoices received

Kettering Borough Training - Performance update: Issue 55 - April 2014

In this month's performance update, the following information should be considered:

- Table 3 - Study Programme replaced Foundation Learning from 1st August 2013.
 - New academic year started 1st August 2013 there have been 34 starts so far and no leavers.
- Table 4 - Starts and Average-in-learning comparisons are between Foundation Learning and Study Programme.

Staff Sickness Summary: Issue 55 - April 2014

As of August 2013, the sickness figures for Customer Services and Information Technology have been split to create a separate row for Information Technology. Data from April - July for Customer Services shows combined figures for Customer Services and IT, however separate backdated data for the service areas is unavailable so there are no figures displayed in Information Technology's sickness row. This does not effect the overall Council figures.
