Subject: Off licence- Montagu St

Good Morning,

Following our telephone conversation yesterday I'm emailing to confirm the following

* An off license opening next door to EYS would not cause a direct issue with the students we work with. I have worked as a manager for EYS for the past 6 years and always been near an off license of some sort or being based in the town centre. We have had two incidents involving alcohol during this time therefore I cannot see this being an issue. If the students wanted to buy alcohol they'd probably go into town to buy it rather than next door- due to staff levels in and around the site.

If you need anything else please let me know.

Chrissie
