4th May 2017

Dear Sir/Madam,

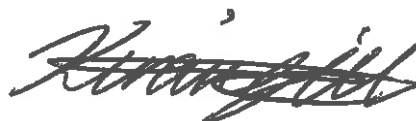

I am sending this letter regarding the socials that have been held at Bar7 in the past.

When I was head of the Southfield School Council we held 3 socials in the last year at the club and it was very beneficial for our council in terms of raising money for our school and as a fun social event for our students in year 11 and the sixth form.

I can understand why there were concerns after the recent public social, but I feel as though schools like my own and others would be impacted negatively if these weren't allowed to carry on. We've always had a limited number of people allowed into the event when we've held one and so they haven't got out of hand. The students had fun and didn't feel unsafe during our events.

Thank you for your time taken in reading this and I hope it can help with your decision.

Yours faithfully,

Kiran Gill
